REPORT OF INDEPENDENT ACCOUNTANTS

To the Stockholders
Greenwater Marine Sciences Offshore, Inc.
Arlington, Virginia

We have reviewed the accompanying financial statements of Greenwater Marine Sciences Offshore, Inc. (the "Company"), which comprise the balance sheets as of December 31, 2021 and 2020, and the related statements of operations, changes in owners' equity, and cash flows for the years then ended and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements related to our reviews.

Accountant's Conclusion

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States.

Notes to Financial Statements

1. Summary of Significant Accounting Policies:

Description of Business: Greenwater Marine Sciences Offshore, Inc. (the “Company”) was organized as a limited liability company on June 11, 2019 in the Commonwealth of Virginia. Effective June 11, 2021, the Company was converted to a B-Corporation. The Company plans to provide crewed ships to ocean scientists that are suitable for coastal and near-shore research projects.

Management’s Plans: The Company’s strategic plan for 2022 is to finalize the infrastructure of the Company and acquire, outfit, and prepare the first one or two vessels for the initial operations in late 2022. Used vessels that are attractive to the Company for purchase and retrofit will be inspected by Company staff for suitability and seaworthiness, following which terms will be negotiated and contracts identified. The Company intends that execution of its strategic plan using funds raised from its crowdfunding campaign will enable the Company to grow holistically on its own, eventually expanding to other regions and operations and continue for a reasonable period of time.

Basis of Accounting: The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (“GAAP”) as determined by Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”).

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual results could differ from those estimates.

Concentrations of Credit Risk: Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash and accounts receivable. The Company maintains its cash in a high credit quality financial institution with balances that periodically exceed federally insured limits. Cash balances are insured by the Federal Deposit Insurance Corporation up to \$250,000.

As of and for the year ended December 31, 2020, one customer accounted for 100% of accounts receivable and other income.

Accounts Receivable: Accounts receivable consists of amounts billed to customers in the ordinary course of business. Management evaluates outstanding receivables for collectability and once determined to be uncollectible, records and allowance for doubtful accounts against the remaining balance. Management determined no allowance for doubtful accounts was deemed necessary at December 31, 2020.

Notes to Financial Statements, Continued

1. Summary of Significant Accounting Policies, Continued:

Advertising Costs: The Company expenses advertising costs as incurred. Advertising expense was \$2,127 during 2021 and \$4,102 for 2020.

Income Taxes: The Company was treated as a partnership for federal and state income tax purposes through June 10, 2021, and its member reported their respective share of the Company's taxable income or loss in their personal income tax return. Accordingly, no provision or liability for income taxes has been included in the accompanying financial statements for 2020.

Effective June 11, 2021, upon conversion to a C-Corp, the Company's deferred income taxes are provided on temporary differences between financial statement and income tax reporting. Temporary differences are differences between the amounts of assets and liabilities reported for financial statement purposes and their tax basis. Deferred tax assets are recognized for temporary differences that will be deductible in future years' tax returns and for operating loss and tax credit carryforwards. Deferred tax assets are reduced by a valuation allowance if it is deemed more likely than not that some or all of the deferred tax assets will not be realized. Deferred tax liabilities are recognized for temporary differences that will be taxable in future years' tax returns.

Income Tax Uncertainties: The Company follows FASB guidance for how uncertain tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax expense and liability in the current year.

Management evaluated the Company's tax positions and concluded that the Company has taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of this guidance. The Company is not currently under audit by any tax jurisdiction.

Subsequent Events: Management has evaluated subsequent events through March 30, 2022, the date the financial statements were available to be issued, and has determined that except as disclosed in note 2, there are no subsequent events to be reported in the accompanying financial statements.

GREENWATER MARINE SCIENCES OFFSHORE, INC.

Notes to Financial Statements, Continued

2. Owners' Equity:

From inception through June 10, 2021, the Company was organized as a limited liability company with membership units available to be issued as determined by the managing member. Effective June 11, 2021 and pursuant to the Company's amended articles of incorporation (as such par value was amended following the date of these financial statements), the Company is authorized to issue 20,000,000 shares of common stock at \$0.0001 par value per share. Each holder of common stock is entitled to one vote per share. At December 31, 2021, there were 8,030,000 shares of common stock issued and outstanding.

3. Income Taxes:

The Company has federal and state net operating loss carry forwards of approximately \$18,000 at December 31, 2021, available to offset future taxable income in accordance with the Internal Revenue Service regulations.

Management believes that a full valuation allowance is appropriate given the current estimates of future taxable income, as well as consideration of available tax planning strategies. The ultimate realization of the net deferred tax asset is dependent upon the generation of future taxable income during periods in which temporary differences become deductible.
